

## Errata

---

### 1. In the TS 1.3.9 Rev 1f manual, page 129:

In order to prevent confusion when clustering TS boxes, substitute the paragraph as follows:

*Instead of:*

"Note: Centralized management can mean one big configuration file (the common file) that is placed in a management host. This same file would be downloaded into all TS/ACS boxes ..."

*Should be::*

"Note: Centralized management can mean one big configuration file (the common file) that is placed in a management host. This same file would be downloaded into all TS boxes ..."

### 2. In the TS 1.3.9 Rev 1f manual, page 444:

Appendix O – Replace the Start/Stop Daemons instructions as indicated below:

*Instead of:*

```
DB /etc/cy_buffering.sh // Data buffering (ACS only)
NTP /etc/ntpclient.conf // Network Timer client
SNMP /etc/snmpd.conf // SNMP
IPSEC /etc/ipsec.sh // VPN - Ipsec (ACS only)
NIS /etc/ypbind.conf // NIS (ACS only)
SYSLOG /etc/syslog.sh // Syslog daemon
SSH /etc/sshd.sh // Secure shell
INETD /etc/inetd.sh // Network services daemon
PMD /etc/pmd.sh // Power Management daemon
```

*Should be:*

```
NET    /etc/inetd.sh
```

SSH	/etc/sshd.sh
LOG	/etc/syslog.sh
NTP	/etc/ntpclient.conf
SNMP	/etc/snmpd.conf
PMD	/etc/pmd.sh
